Applicant: Or, *et al.*
Serial No.: 10/007235
Docket No.: ENP-036
Filing Date: 10/22/01

Examiner: R. Anderson

TITLE: Alpha-Hydroxyarylbutanamine Inhibitors of Aspartyl Protease

BY FACSIMILE TRANSMISSION: 703-746-7444

Commissioner of Patents and Trademarks
Washington, D.C. 20231

**PETITION TO WITHDRAW HOLDING OF ABANDONMENT BASED ON
FAILURE TO RECEIVE OFFICE ACTION**

Dear Sir:

On August 21, 2002, Ms. Rebecca Anderson, the examiner in the above-identified application called the office of the applicants' assignee, Enanta Pharmaceuticals, Inc. and stated that the application had been held to be abandoned for failure to respond to an Office Action which had been mailed by the United States Patent and Trademark Office (USPTO) on February 7, 2002. Ms. Anderson stated that the Office Action included a restriction requirement and a requirement for election of species and specified a time period of one month for response.

The Office Action has not been received at the offices of the applicants' assignee, Enanta Pharmaceuticals, Inc. 500 Arsenal Street, Watertown, MA 02472, which is designated in the Utility Patent Application Transmittal form as the correspondence address for the application.

Applicants' undersigned attorney has made a search of the file jacket of the application, and of the patent docket records, maintained by the applicants' assignee.

The file jacket and the docket records show conclusively that the Office Action was not received.

Attached hereto as Exhibit 1 is a copy of the first, fifth and sixth pages of a document maintained by applicants' assignee, entitled "Actions Due and Mail Received from PTO". This docket, which identifies the listed applications by Attorney Docket

Number, ENP-036 in the case of the present application, lists all the documents received, starting as of January 25, 2002, in the patent applications of applicants' assignee. Page 6 of this record shows that a return postcard for an Information Disclosure Statement filed in the present application was received February 1, 2002 and a Recordation of Assignment was received on February 25, 2002. It can be seen that the Office Action in question was not received as of March 7, 2002 which would have been the end of the one month response period specified in the Office Action.

Applicants' assignee also maintains a docket record entitled "Patent Docket" which docket all actions due in the patent applications of the applicants' assignee. Attached hereto, as Exhibits 2 and 3, respectively, is a copy of each of the Patent Docket documents dated February 26, 2002 and March 13, 2002 which show all replies docketed for a date one month from the mailing date of the nonreceived Office Action. It can be seen that there is no entry in the Action Due column for the present application (see page 4 of each of these exhibits).

It is respectfully submitted that the showing made by this Petition clearly establishes nonreceipt of the Office Action mailed February 7, 2002. It is therefore respectfully requested that this Petition be granted and, further, that the Office Action be remailed.

Respectfully Submitted,

Gaetano D. Maccarone
Reg. No. 25,173

Certificate of Facsimile Transmission

I hereby certify that this correspondence is being submitted to the United States Patent and Trademark Office via facsimile transmission today to 703-746-7444.

Date: August 22, 2002
